THE NATURAL STONE COMPANY

# 矿山 Quarries

诺万天纳的主要资源来自公司自有矿山，在保证公司主要石材产品以及大型工程项目的稳定供应上有重要作用。

公司在全球不同区域如：西班牙，葡萄牙和巴西拥有多个大理石，花岗岩和其他石材的矿山。诺万天纳每年从这些矿山中开采出两百二十多万吨的石材，是全球拥有最多天然石材矿山的公司。其中最为突出的是位于阿利坎特省比诺索市郊的西班牙米黄Coto®矿，它是全球最大的大理石矿山。

此外，诺万天纳也和其他矿产资源供应商签署了优先供应的协议。

Levantina's main source of supply is its own quarries, which allows it to guarantee the supply of strategic materials and manage large-scale projects.

The Company has its own marble, granite and other stone quarries located in different parts of the world such as Spain, Portugal and Brazil. Levantina extracts more than 2.2 m<sup>3</sup> of raw materials annually from these quarries and is the company which owns the largest number of marble quarries in the world. The standout quarry is Crema Marfil Coto®, located in Pinoso (Alicante), which is the largest marble quarry in the world.

Levantina also has preferential supply agreements with other quarries.

# LEVANTINA

矿山 / Quarry

## 西班牙米黄 Crema Marfil

大理石岩，带有不均匀分布的方解石结晶纹理。适合加工成各种板面成品：光面，亚光面，荔枝面等等

Marmoreal stone with irregularly distributed crystallised calcite veins.

Suitable for any surface finish: polished, honed, bushhammered, etc.

矿山 / Quarry

# 深啡网 Marron Emperador

大理石岩，细颗粒密集，带有角砾状及不规则的白纹。适合加工成各种板面成品：  
光面，亚光面，荔枝面等等

A compact fine-grained marmoreal stone, with irregularly distributed white breccoid veins.

Suitable for any surface finish: polished, honed, bushhammered, etc.

矿山 / Quarry

# 深啡网 Marron Emperador

大理石岩，细颗粒密集，带有角砾状及不规则的白纹。适合加工成各种板面成品：  
光面，亚光面，荔枝面等等

A compact fine-grained marmoreal stone, with irregularly distributed white breccoid veins.

Suitable for any surface finish: polished, honed, bushhammered, etc.

矿山 / Quarry

# 深啡网 Marron Emperador

大理石岩，细颗粒密集，带有角砾状及不规则的白纹。适合加工成各种板面成品：  
光面，亚光面，荔枝面等等

A compact fine-grained marmoreal stone, with irregularly distributed white breccoid veins.

大理石岩，细颗粒密集，带有角砾状及不规则的白纹。适合加工成各种板面成品：  
光面，亚光面，荔枝面等等

A compact fine-grained marmoreal stone, with irregularly distributed white brecciid veins.

Suitable for any surface finish: polished, honed, bushhammered, etc.

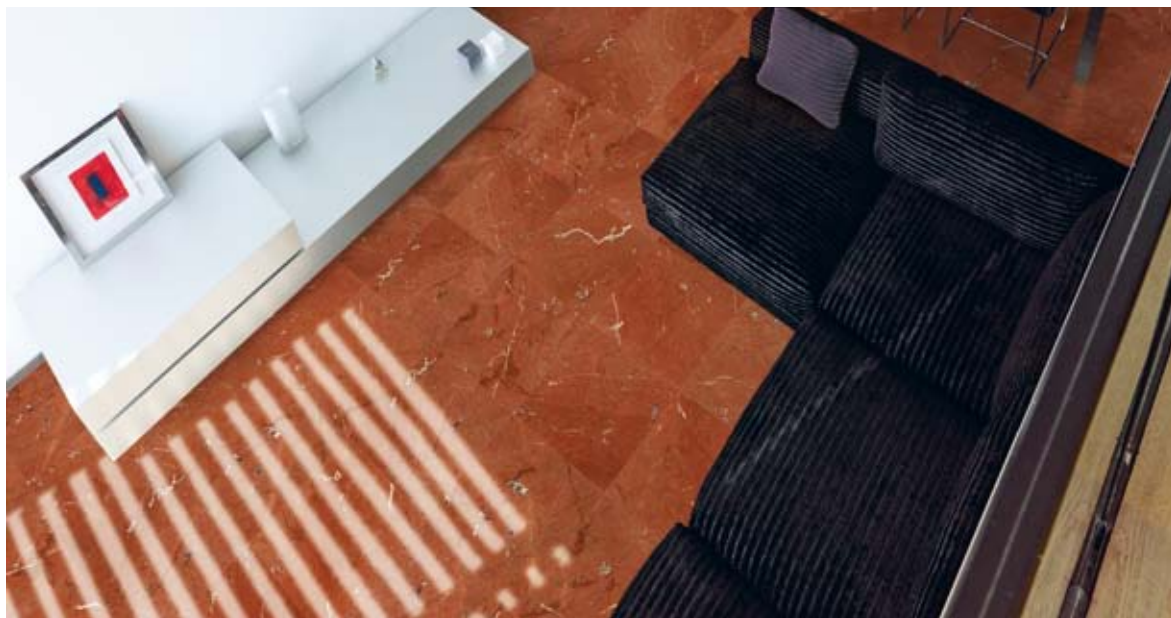

矿山 / Quarry

## 珊瑚红 Rojo Alicante

大理石岩，细颗粒密集，带不规则的小白纹。适合加工成各种板面成品：光面，亚光面，荔枝面等等

A compact fine-grained marble, with irregularly distributed white breccoid veins.

Suitable for any surface finish: polished, honed, bushhammered, etc.

矿山 / Quarry

# 铂利黄 Spanish Gold

大理石岩，细颗粒密集，带有不均匀分布的方解石结晶纹理。适合加工成各种板面成品：

光面，亚光面，荔枝面等等

A compact fine-grained marble, with irregularly distributed white breccoid veins.

Suitable for any surface finish: polished, honed, bushhammered, etc.

矿山 / Quarry

# 巴黎米黄 Baltico

大理石岩, 带有大面积的化石, 呈乳白色至淡灰色。适合加工成各种板面成品:  
光面, 亚光面, 荔枝面等等

Cream and light grey marmoreal rock with large fossils.

Suitable for any surface finish:  
polished, honed, bushhammered, etc.

矿山 / Quarry

# 米斯特米黄 Mistral

大理石岩，细颗粒密集，带不规则的小白纹和蓝灰纹。适合加工成各种板面成品：

光面，亚光面，荔枝面等等

Compact fine-grained marmoreal stone with some small, irregular white and bluish grey veins.

Suitable for any surface finish: polished, honed, bushhammered, etc.

矿山 / Quarry

## 西班牙洞石 Travertino Vallanca

大理石岩, 米黄色, 具有低孔隙度及不易吸收性等特性。根据不同的切割法: 沿着纹理或反向纹理切割, 其成品外观有极大不同。

Beige marmoreal Natural Stone, stands out because of its beauty, low porosity and low absorption.

Its appearance can be changed substantially depending on how it is cut, vein or cross vein, or the finish.

矿山 / Quarry

# 石灰石 Caliza

乳白色石灰石，带少量化石。  
最适合亚光面，也适用于加工成光面，荔枝面和开裂面。

Cream white limestone containing  
some small fossils.

Ideally honed, but can be polished,  
bushhammered and splitface.

矿山 / Quarry

# 白砂岩 Niwala White

贝壳大理岩, 带孔, 通常适用于毛面或亚光面。

Limestone, sandstone, a porous biocalcirudite.

Creamy white with many fossils.  
Normally used either honed or with a rough finish.

矿山 / Quarry

# 黄砂岩 Niwala Yellow

贝壳大理岩, 带孔, 通常适用于毛面或亚光面。

Limestone, sandstone, a porous biocalcirudite.

Can be used either with a honed or rough finish.

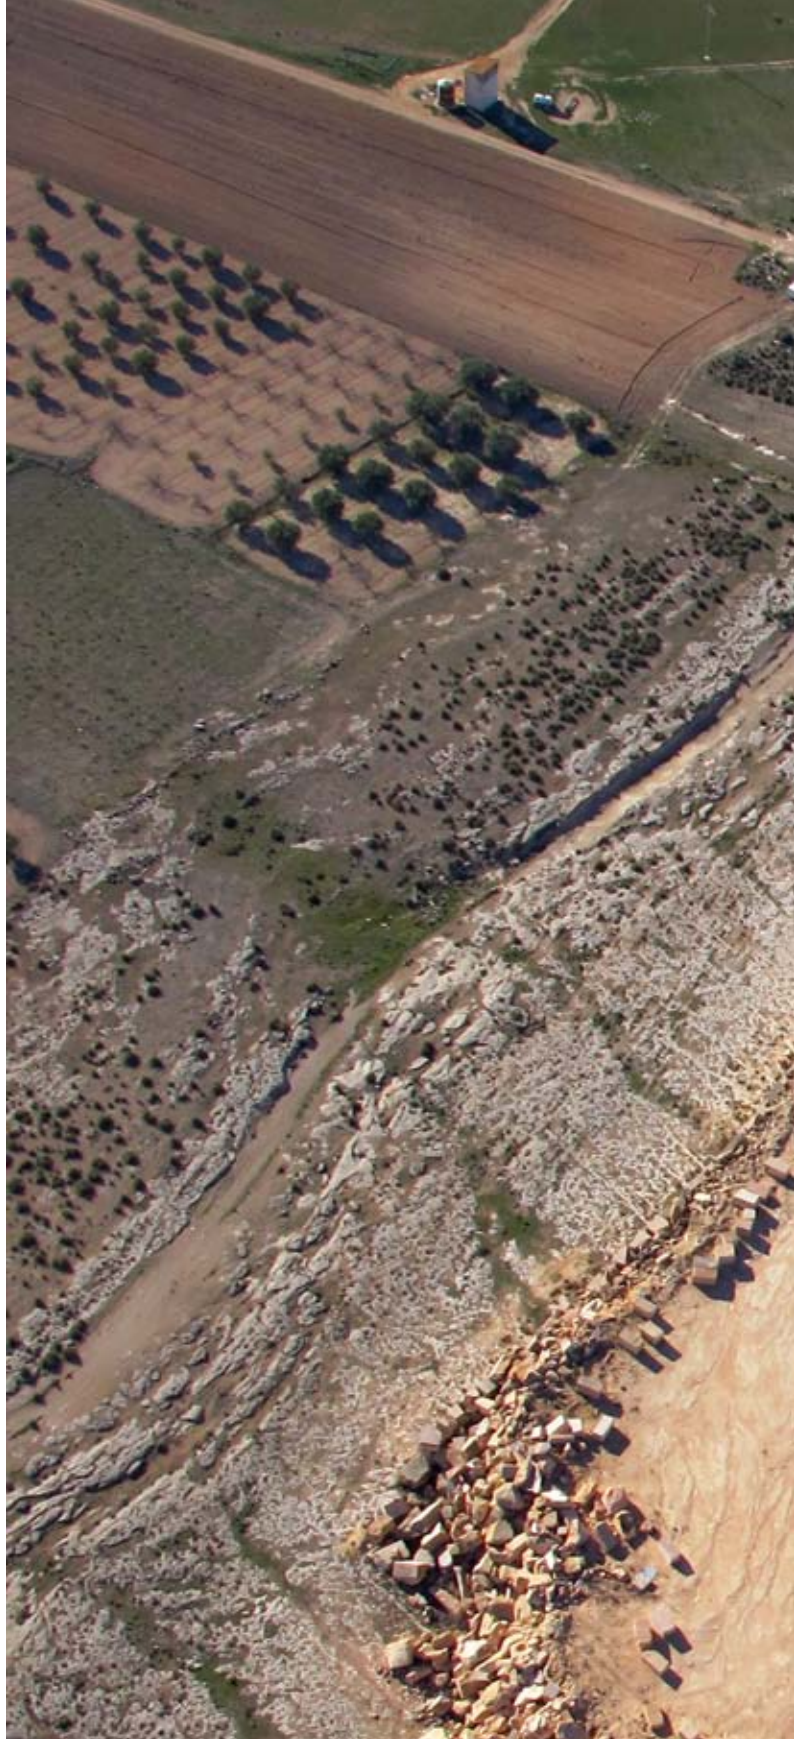

矿山 / Quarry

# 红砂岩 Niwala Rosa

贝壳大理岩, 带孔, 通常适用于毛面或亚光面。

Porous biocalcirudite limestone or sandstone.

Creamy white with many fossils.  
Normally used either honed or with a rough finish.

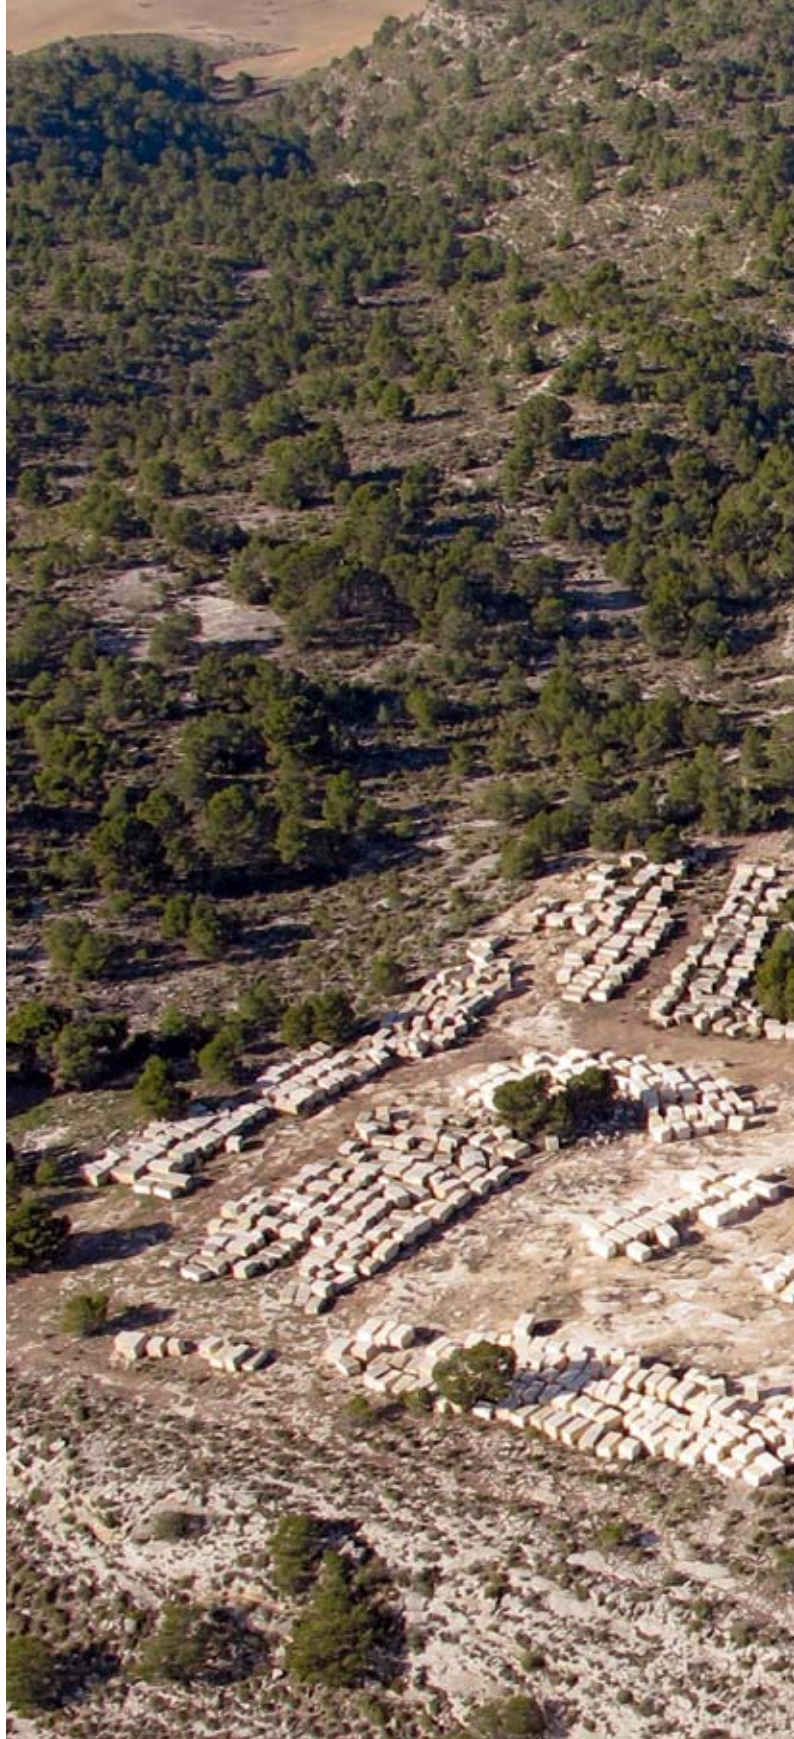

矿山 / Quarry

# 贝莎金 Golden Shell

贝壳大理岩, 带结晶和长石, 通常适用于毛面或亚光面。

Biocalcirudite sandstone or limestone with calcite, quartz and feldspar.

Normally used either honed or with a rough finish.
