**THINK BIG THINK SLIM**

## New

People who love large formats have new options when choosing **Crema Marfil Coto®** with new formats such as **36" x 24" x 1/2"** and **36" x 18" x 1/2"** to round off the range.

The inclusion of these new formats makes it possible to design original settings with style. Especially if you want to create large settings with fewer joints and a matchlessly uniform look.

- ⊕ Trendy
- ⊕ Luxury
- ⊖ Joints

## THINK BIG THINKSLIM

**No Crema Marfil Coto® tile has ever been lighter and thinner.** Crema Marfil Coto® is now available in 1/2" thickness.

## What format would you like? RESPONSIVE STONE DESIGN

Crema Marfil Coto® & Tile Collection  
Think Big

### ⊕ TRENDY

A collection more in tune with the latest trends in architecture and interior design, offering a larger concept, a broader vision of space, and a reduction in joints between units.

### ⊕ FUNCTIONAL

Very practical for use as flooring and cladding as it enables each piece to cover a larger area. Its thinness makes it easier to place on existing floors, which simplifies fitting and makes it especially suitable for renovation work.

### ⊕ SIZE

Larger than other formats available in the market, this new concept will allow you to follow the trend with all the benefits of a large size.

### ⊕ COMBINATIONS

The perfect combination for Crema Marfil Coto® is here. Combining these sizes provides a harmonious solution for your projects.

### ⊕ QUALITY

Because Levantina always offers the trustworthiness and supply commitment of a leading company in the industry.
